

UT-201 Tablet Computer Mounting Details

- Width: 10.4" (26.4 cm) Depth: 8.4" (21.3 cm) Height / Thickness: 2.3" (5.8 cm)
- Compatible Tablet Dimensions
Width: 9.30-11.24" (23.5-28.5cm) Depth: 6.83-8.13" (17.3-20.7cm)
Height/Thickness: 0.55- 0.93" (1.4-2.4cm)
- Includes a VESA 75 x 75 mounting hole pattern with four (4) M4 standoff threaded nut inserts.
- Screws on from behind / underneath.
- Can be mounted for landscape or portrait applications.
- Currently mounts to C-UMM-101, C-DMM-1XX series and C-MKM-101 with C-MM-201 and C-MM-301 adaptor brackets. See notes and photos below.
- Can mount to a C-UMM-101 with C-MM-201 and C-MM-301, but the C-UMM-101 has been revised with a VESA 75 hole pattern so adaptor plates are not needed. New C-UMM-101's in production as of 1/2/13.
- Does NOT mount to older C-MD-202 or C-MD Series ordered prior to 2/1/13. For these older motion devices we recommend to drill for the VESA 75 hole pattern or purchase a New C-MD-202.
- The C-ADP-101 can be used but it will require eight (8) washers to make it work with the large slots.
- C-MD-202 (manufactured after 2/1/2013) have been updated with a VESA 75 hole pattern and a hole pattern for the C-MM-218. This will allow UT-201 mounting as shown in photos 3, 4, 5 and 6.
- See the newer **C-MD-207**. This can be used instead of C-MD-202 and C-MM-218. Photos 7, 8, 9 and 10
- Consider **C-MD-205** for unique applications such as inside a Motorcycle luggage rack box. Photos 13 and 14
- **NOTE 1:** The **C-MD-206** can also be used for applications that need a taller VESA 75 mount.
- **NOTE 2:** All C-DMM, C-UMM-101 and C-MKM-101 have been revised with the VESA 75 specific hole pattern. The C-MM-201 and C-MM-301 may still be still recommended for some applications.
- **NOTE 3:** Some tablets may be slightly too thin for the UT-201 side lug clamps. A protective cover that falls within the compatibility measurements is recommended and will solve the size issue.
- **Recommended Ipad Protective covers** - OtterBox Defender, LifeProof nuud, Griffin IntelliCase or Survivor.
