

AUTO LEVEL DIGITAL LEVELING INDICATOR

Auto Level - LED Level Indicator

The Auto Level is an 2 digit LED, Digital Angle Display that can be used in various applications. The indicator utilizes 8 PCB surface mount LEDs consisting of: yellow and red. Easy connection to 12V or 24V switched power. One wire calibration. Installation is simple since the indicator utilizes (2) #8 mounting holes. 3-wire hookup leads make wiring simple. The Auto Level is typically wired into a switched battery system by connecting red to battery positive and black to battery negative. The 3rd wire (white) is used for calibrating the sensor after vehicle or trailer mounting.

SPECIFICATIONS:

- 2-Digit LED, Digital Angle Display
- 8 PCB surface mounted LEDs: Yellow , Red
- 1-wire zero calibration
- 3-axis sensor
- Reverse polarity protected
- Two #8 mounting holes
- Easy connection to 12V or 24V switched power
- Lexan® overlay
- Waterproof meets IP64 standard
- Includes mounting gasket
- Optional: Audible Level Alarm Available
- 3 year warranty

Optional:

Audible Level Alarm

Model # - 091-260-S (12V)

Model # - 091-260-S-24 (24V)
