

# TRUECHARGE2 REMOTE PANEL

## Advanced Remote for Monitoring and Full Control of Battery Charger Performance.

The TRUECharge2 Remote Panel is designed for use with TRUECharge2 Battery Chargers.

This full-function remote allows you to monitor and control battery charger performance from a remote location, including features not accessible from the charger's onboard display. The TRUECHARGE 2 Remote Panel reads like a fuel gauge and displays critical information on charging of battery banks. It is very easy to install, read and operate, connecting with the battery charger through the included telephone cable.

### Features:

- Can be used to operate two chargers in parallel to increase output capacity
- Allows the charger to be powered on or placed into standby while AC power is connected
- Programs the charger for battery type and temperature
- Displays faults and warnings, basic battery level and settings
- Displays the current status of each battery or each battery bank
- Simple push buttons to set charger mode
- FCC Class B compliant
- Allows for activation and termination of equalization
- Two year warranty

### Included:

- TRUECharge™2 remote panel (part# 808-8040-01)
- Two 7.6 m (25') communication cable
- Mounting template and 1 1/2" NPT locknut for mounting

### NOTE:

This remote panel (part# 808-8040-01) is compatible with the following part numbers: 804-1220-02, 804-1240-02, 804-1260-02, 804-2410, 804-2420 and 804-2430. Please use remote panel (part# 808-8040-00) for 804-1220, 804-1240 and 804-1260.

### Electrical Specifications:

- Display: LED
- Off-state battery drain: < 40 mA
- On-state power consumption: < 150 mA

### Mechanical Specifications:

- Part#: 808-8040-00
- Dimensions (L x W x H):  
4-9/16 x 1-3/4" x 3-8/16"  
(114.64 x 44.39 x 89.64 mm)
- Weight: 200 grams
- Operating temperature range:  
32°F to 140°F (0°C to 60°C)
- Storage temperature range:  
-40°F to 176°F (-40°C to 80°C)
